

Dear National Project Coordinators and Colleagues,

The **Hungarian chair aims at developing further the methodology of cooperation with the ETPs** in order to **increase the number of projects**.

As a next step in the process we would like to get a clear picture on the commitment of EUREKA countries towards the **food-tech action**, therefore we would like to **kindly ask you to express your interest by filling in the attached form** and sending it back to communications@eurekanetwork.org. The information collected through this form will be published on the EUREKA website under **Food-tech action**.

EUREKA is also delighted to invite you to the second workshop of:

Research and Innovation Collaboration In the Food Sector

A EUREKA Academy Conference

19 January 2012 - EUREKA Secretariat, 107 Rue Neerveld, Brussels

EUREKA will hold a thematic conference **on Interdisciplinary R&D Cooperation in the Food Sector**, inviting high level speakers from organisations and industry active in this field. EUREKA has adopted in its preceding workshop a **multi-disciplinary approach** around the food-producing sector and **identified fields for collaboration**.

Representatives from European and National Technology Platforms and National Funding and Innovation Agencies within the EUREKA network will discuss together **a common procedure for project generation** in the field of food-production.

To register please go to: http://www.eurekanetwork.org/food_tech_registration
or contact communications@eurekanetwork.org.

The EUREKA Secretariat looks forward to welcoming you and contributes to the debate!
