Bernard THONON

GRETh, Grenoble, France

bernard.thonon@greth.fr

General objectives

- To develop renewable heating and cooling technologies
 - Solar heating
 - Biomass heat
 - Heat-pumps
 - Geothermal
 - Solar cooling
 - Energy storage
- Small scale to large scale applications
- Dissemination and promotion actions
- Training

The partnership

- IAG
 - Greth (France)
 - ESTIF (European)
 - REHVA (European)
 - ...
- SME
 - Manufacturers of RES-HC components
 - Engineering companies
 - HVAC industry
 - Technology transfer association and consultant
 - ...
- RTD
 - CEA (France)
 - CRES (Greece)
 - ISE (Germany)
 - FST (Macedonia)
 - ULG (Belgium)
 - ...
