- Research center

Coordinator : Dr Alain Belcourt

ORAIL

Oral Administration of insulin

Thematic priority: TP1 LifeSciences, genomics and
Biotechnology for health

Project title : Oral Administration of Insulin

Status : under preparation

Call : 4

Instrument: STREP

Research area : Application of knowledge and technologies in
the field of genomics and biotechnology for health

Topic : Rational and accelerated development of new, safer,
more effective drugs including pharmacogenomics
approaches

ORAIL

Oral Administration of insulin

Consortium :

Research lab: CeeD (F), ATTM (F), DEMP (I), ICS (F), JMWU (D), UCL (B), ULB (B)

SME: Photon & polymer, ...

Project description & strategy: development of vectors for oral administration of bioactive product to protect them from the digestive tract aggregation

Partners sought : SMEs biopolymerist producers, insulin producers, animals models companies...
